LOOK AT HOW HAPPY WE ARE.

THERE IS NO MORE DREAD.

WE ARE YOUR NEW FUTURE.

Note the change around you. Positivity is our drive, happiness is our goal. The motive to establish a world where **NOBODY** is afraid is in close grasp. There is no more need to prepare for trouble and fight for further despair, we have **CONQUERED** what our predecessors were too afraid to face.

The age of fear has expired.

Happiness is more abundant than ever before. The purging of those who purvey a world of **FEAR** has proven to be a successful drive to the evolution of mankind. The directive to overcome the adversity of the human species has been nearly achieved. We accept with tremendous gratitude the ability we have been given, and vow to continue in our quest to rid the world of the hate and misfortune that has been left for us to fix. We sincerely hope all who fear the cleansing will yield to the objective for the greater good.

The human race must move forward.

Follow the rules

Accept what is right

Don't get left behind
