Notes

I thought a tabloid article would be a funny and engaging way to demonstrate examples of the uncanny valley without creeping out the reader as much. It allows me to make up a story, which is fun, and use that to add a little bit more to my topic. A tabloid is important to my topic because it adds a little more humor to such a dark theme, while still teaching in a way. I did not use any sources other than that of the photos; the ideas of this tabloid were made up by me.
